

Maldives' main airports deploy Rockwell Collins' passenger processing platform to streamline the passenger experience

The Maldives main international airports are now using Rockwell Collins' ARINC vMUSE™ Common Use Passenger Processing System to improve airport processes while expediting the check-in process for passengers

Singapore – (6 November 2017) - The Maldives main international airports, Velana International Airport (VIA) under Maldives Airports Company Ltd (MACL) and Gan International Airport (GAN), are now using Rockwell Collins' ARINC vMUSE™ Common Use Passenger Processing System (CUPPS) to improve airport processes while expediting the check-in process for passengers. MLE recently renewed its existing contract with Rockwell Collins while GAN signed a new agreement with the company.

We have embarked on the biggest project in history of Maldives to development VIA. Over a USD billion investment is made to build the airport infrastructure to a whole new level "Tourism is the largest industry in the Maldives so our airports, and the experience our passengers have, is incredibly important to our overall economy," said Mr. Adil Moosa (Managing Director of MACL) "Rockwell Collins ARINC vMUSE enables us to provide a faster and easier check-in experience for our airline customers and passengers. It also enables airlines to share workstations, making the best use of our resources."

ARINC vMUSE provides a more efficient and cost-effective check-in solution for travelers by providing airlines with operational flexibility while making the best use of an airport's existing infrastructure.

"Rockwell Collins has worked with Maldives Airports Company Ltd (MACL) for over a decade," said Chris Forrest, vice president, Airport Systems at Rockwell Collins. "In fact, it was our successful relationship as a preferred IT solution partner for MACL that resulted in our new agreement with GAN. We are ideally positioned to support the Maldives airports as they continue to grow."

About Rockwell Collins

Rockwell Collins (NYSE: COL) is a leader in aviation and high-integrity solutions for commercial and military customers around the world. Every day we help pilots safely and reliably navigate to the far corners of the earth; keep warfighters aware and informed in battle; deliver millions of messages for airlines and airports; and help passengers stay connected and comfortable throughout their journey. As experts in flight deck avionics, cabin electronics, cabin interiors, information management, mission communications, and simulation and training, we offer a comprehensive portfolio of products and services that can transform our customers' futures.
